

Atzaró

A CENTURY OLD UNIQUE FARM,
IN THE HEART OF IBIZA ISLAND

Atzaró, a luxury Agrotourism Hotel, lies inland in the north east of Ibiza, near San Lorenzo and Santa Eulalia. The main building, an original 350 year old Finca has been meticulously maintained by eight generations of the same family. Additional spaces have been designed to coexist with Atzaró's stunning natural surroundings of orange groves and Mediterranean gardens set over 10 hectares of lush countryside. Scented flowerbeds of lavender, thyme and rosemary awaken the senses as you approach the hotel, passing a floodlit lily pond and Buddha statues. Atzaró has 24 rooms including 2 suites, some situated in a slightly elevated position just across from the main building. These rooms are modern in style and have a definite Mediterranean feel. Retaining rustic authenticity yet offering all the latest technology, every room at Atzaró is different: from fountains, Jacuzzis and private terraces to fireplaces, balconies, four poster beds and sitting rooms, each space offers a unique luxury experience. Set amongst vibrant bougainvillea, jasmine and geraniums you can enjoy the very best from the wellbeing Spa. With 8 treatment areas offering a range of therapies, a dry sauna, Hammam, yoga temples and a choice of pools you need never leave the hotel. A 43 metre pool allows lap training and Aqua sports, or simply enjoy the beautiful serene views from a Balinese day bed whilst enjoying a healthy freshly made organic juice or tea from the Bubbles Bar. A complete and modern gym equipped with cardiovascular, weightlifting, and aerobic and fitness items is available. The Gourmet Restaurant La Veranda offers guests Al fresco dining surrounded by fountains, ponds and flowers. In its Mediterranean menu many of the delightful ingredients come from Atzaró's own organic vegetable and herb gardens. If you can tear yourself away from this haven of tranquility for a day at the Cala Nova beach, the Atzaró has two restaurants: The Atzaró Beach Restaurant (rices, paella and fresh fish) and the Chiringuito with a more light cuisine and cocktails. The Atzaró Group has also the restaurant Aubergine, located in Santa Gertrudis, in the Ibizan countryside that offers Mediterranean cuisine, based on organic ingredients of its own garden.
